

Phase Three - Part One - Medical

This will be the most difficult Phase for me to write. I planned and would like this to be the last lengthy recitation on the subject of the Chinese Communist Party virus and the American made Drug Treatment a/k/a the "Vaccine." The reason I hope for this? The Truth is slowly but surely starting to see the light of day. Yes, day by day. We just need to seek the truth, it's getting out there.

This Phase Three needs to be divided into parts. The first parts will be "Phase Three - Part One - Medical" and "Phase Three - Part Two - Medical." At a later date you will receive "Phase Three - Political. There is a lot of material to cover. But, it's all very important to know. Please bear with me. Be a patient reader. If it takes a few days to read, then go ahead and read slowly. It took time to write this. If you don't understand something, if you have questions or want to discuss anything herein, please feel free to do so. Email me!

I thank my friends who receive these updates for sending me various articles, documents and websites to help support my research. You know who you are. Each and every piece of information helped me, either directly or indirectly, by showing me a pathway and frequently a highway to journey down to get more information.

I have made an effort, as best I could not to intertwine Virus issues with Politics, but now that's totally unavoidable - imposable. Recently, one of the 16 people, like you, sent me this quote:

"Every record has been destroyed or falsified, every book rewritten, every picture has been repainted, every statue and street building has been renamed, every date has been altered. And the process is continuing day-by-day and minute-by-minute. History has stopped. Nothing exists except an endless present in which the Party is always right." George Orwell, 1984.

Orwell's famous social science novel, "1984," a fiction published in 1949 projecting ahead 35 years, has become 2021's reality. The Party in power is proving that reality is stranger than fiction. We know we are living it and it's not fiction.

To start, I need to be somewhat redundant and go over some ground we covered earlier but it's necessary to lead us into what we might be dealing with very soon. All revolve around our Immunity System.

Our immunity system is the main reason humans continue to survive on this planet. The immunity system has a "mind of its own." It works without us commanding it to do so. Most of the time it's working and we are not even aware that it is. Our bodies are constantly invaded either by what we might eat, breathe or have injected into our bloodstream. For example: There are those who hardly ever or never catch a cold or even contract the flu. Not that their bodies aren't invaded by the Cold or the Flu Virus, but rather their Immunity System detected the invading Virus and successfully destroyed it without that person knowing. I'm sure you have had days where you just don't feel totally well and find yourself feeling much better the next day. That was most likely your immunity system at work.

The starting line for our "immunity dash" is our Bone Marrow. It's within the Bone Marrow that we create and generate both immature T-cells and B-cells. This is what healthy human Bone Marrow does and here is what it looks like:

As you can see there are spaces between our Bone Marrow; they look like holes. The bigger and wider those spaces, the less actual Bone Marrow there is in each of our bones. Less Bone Marrow means less T-cells and B-cells to be created and generated. Part of aging is the continuous expansion of those spaces and reduction in Bone Marrow mass. The only information that I could find on the degree of this degeneration of Bone Marrow, or you might say, expansion of space sizes based upon age was limited. I attribute that to the fact we are all different, even if we are the same age. The very rough and inexact breakdown on this subject is:

*"The **bone marrow** undergoes changes with **age**. The most readily apparent change is a decline in marrow cellularity. The percentage of marrow space occupied by hematopoietic tissue goes from 40–60% in young adults to 20–40% in older people, with the remaining space being taken up by fat."*

Let's take an imprecise closer look at this. The average combined life expectancy of Americans both male and female is around 79 years old. We will round that out to 80 years old. Let's break this down into three age groups as follows:

Group One: Children, Teens and Young Adults under 26.

Group Two: Adults between 27 and 52.

Group Three: Senior Citizens between 53 and 78 as well as those over 78.

In Group One Children should have about 60% of their interior bone marrow space occupied by Bone Marrow with about 40% open space or holes. Teens about 53.4% of their interior bone marrow space occupied by Bone Marrow and about 46.6% open space or holes. Young adults about 46.8% of the interior bone marrow space occupied by Bone Marrow and 53.2% open space or holes.

In Group Two: Adults 26 to 32 should have about 40% of their interior bone marrow space occupied by Bone Marrow and 60% open space or holes. Those between 32 and 52 should have about 30% of their interior bone marrow space occupied by Bone Marrow and 70% open space or holes.

In Group Three: Senior Citizens 53 to 65 should have about 30% of their interior bone marrow space occupied by Bone Marrow and 70% open space or holes. Those between 66 and 78 or older should have about 20% of their interior bone marrow space occupied by Bone Marrow and 80% open space or holes.

Again, less Bone Marrow equals less ability to create immature T & B cells.

All of the above is just **ONE** of the many bodily changes that occur as we get older. As we age we are more and more prone to illnesses that can disable and kill us. Our ability to fight these illnesses has steadily diminished over the years. The percentages noted above are very rough and approximate. There are so many factors that affect this process. One of course is genetic make up. Nowhere on earth or in the history of mankind has the genetic pool been mixed like it has in the United States. This could be a very good thing! For the last 240 plus years American offspring have created very different and unique DNA. In Spain, Italy, Kenya, Japan, Russia, India, Argentina and China and so on around the world people marry and have offspring almost exclusively within nationality, creating a somewhat similar gene pool. It really makes that saying about those who live to a very ripe old age "having good genes" a true truism.

Moving on to immature T & B cells, they leave our bone marrow, enter our bloodstream and travel to different organs in our body where they need time to incubate and become mature. Let's digress for the moment and review quickly what T and B cells do. Mature T-cells are released into the bloodstream and "patrol" your entire body. If they come across something that doesn't belong there or is not normally present in the body, it will stop and attach itself to that "thing." A split second later, B-cells detect a halted T-cell attachment, the B-cells by the thousands or millions will attack the "thing." The B-cells are also known as Antibodies. They will fight to the death to kill any virus, bacteria, fungi, germ or other invader of your body. They quickly redesign themselves to be the most effective fighter against that particular "thing." And, after they have successfully killed the "thing" they remember its Design and carry it in their memory so they can react swiftly if they encounter the "thing" again. **The length of time B-cells carry these designs in their memory varies.** Sometimes it's a lifetime and sometimes it's for just a few years or months. But, keep in mind, Viruses are very smart and in a way they "talk" to each other. When the Viruses are being killed they have a way to transform themselves into a different looking Virus. This is called a "Variant." That compels your T-cells to find them, put the B-cells in action and start the process over again and have the B-cells enter this new virus in its memory. By doing this, the Virus lives on until it can be killed again. This repeated action transforms a battle into an ongoing war for as long as the Virus can continue to "Mutate" into different "Variants"! As far as I can find in my research, no Virus in human history has been able to Mutate into as many "Variants" as quickly as the CCP Virus (COVID-19). Some Variants are more deadly than others since they can multiply within the body faster and take longer for the B-cells to kill. In people with weakened immunity such as the elderly, it's even more deadly.

Let us follow the journey of the T-cell to be expedient. All the immature T-cells leaving the Bone Marrow enter the bloodstream and are collected in the Thymus Gland. The B-cells are collected in several other bodily organs. The Thymus is in the chest between the lungs, in front and above the heart. This is the site of all T-cell

development and the Thymus plays a main role in a strong immune response. The Thymus releases T-cells into the bloodstream once they have matured. I am unable to find exact numbers as to how long the incubation period is or at what rate the Thymus Gland releases mature T-cells. I need to wonder and I suppose the rate of release is determined by the body's demand or need for more T-cells as well as the Thymus Gland's ability to provide the number of T-Cells being demanded.

What I did learn about the Thymus is that, on one hand, it's one of the very few organs in the human body that can regenerate and repair itself, to a limited degree, if it's damaged or harmed, but on the other hand, it does deteriorate with age. What I was able to learn was the Thymus Gland has a unique pattern of aging very much apart from any other human organ. Thymus tissue builds from birth peaking at puberty. Then Thymus Tissue is estimated to be lost at about 3% per year until middle age then at about 1% per year. Of course this varies in individuals and the rate of loss is greater in males than in females. But even while it's being reduced by age, it will keep repairing itself and fighting for you to provide the T & B cells that your body is demanding.

Also, I did find, surprisingly, the things that do harm the Thymus Gland and limit its ability to repair and generate T-cells.

Here are just some of the things that do damage the Thymus Gland and although it fights to repair itself, that ability to repair diminishes with age. There are other things that harm the Thymus and medical science is still discovering things in our everyday lives that are not good for the Thymus.

1. Chemotherapy - This damage to the Thymus could take years to recover from and in some cases recovery is never complete. This perhaps is why those who have had Chemotherapy are said to have a "compromised" immunity system.
2. Radiation - This damage is similar to Chemotherapy. Combine the two and the Thymus Gland is that much more damaged. It now is understandable why when getting dental x-rays the lead blanket covers the heart area.
3. Steroid Hormones - Used to suppress the immunity system, as an anti-inflammatory to have an effect on autoimmune disease, to reduce allergic and inflammatory disorders. Use by athletes to reduce inflammation of stressed muscle tissues allows them to continue excessive training to build greater muscle mass.
4. Sex steroid hormones such as testosterone, progesterone and estrogen. Used by men and women.
5. Infections - Bacteria, viruses, fungi and parasites. These acute infections can be caused by the pathogen within the Thymus Gland or by the effects of serious spreading infections.

Again, aging is an inevitable process in humans. It's associated with the progressive decline of human health. A weakened immunity system can and WILL impair the ability to respond positively to invading pathogens even with drugs, antibiotics or vaccines. Keep in mind that vaccines and drug treatments are only as good and work only as well as a person's Immunity System.

B-cells start in the Bone Marrow and enter the bloodstream then get stored in the Lymph Nodes and Spleen. As with the Thymus Gland, age wears down these organs and their function varies related to individual age, genetics and health.

The point to be made is that whether it's a Vector Vaccine, an antibiotic or some form of drug treatment to boost a person's immunity system to the maximum ultra high levels, it all still comes down to a person's Immunity System's ability to respond and kill any invader.

I don't believe medical science and/or the U.S. Government really knows the following:

1. What is going to happen in the long run to the 123 million Americans vaccinated and 177 million not.
2. Whether they can achieve Herd Immunity among 300 million people or not.
3. If Americans should or should not wear a mask, whether they are vaccinated or not.
4. How long the current Drug Treatments a/k/a vaccines will protect people. They don't know how long these three super boosted immunity system drug treatments will ward off the CCP Virus/COVID-19. Surely, to a great degree it will be determined by how strong a person's Immunity System is.

5. Whether the people can defend themselves against the different virus Variants constantly emerging, vaccinated or not. (If NOT, it can turn the new "national openings" this summer and fall into a major disaster. Especially so, if the new virus Variants have figured out way to bypass and defeat the current immunity system of the younger age groups.)

6. Whether medical science can or will ever develop a real true Vector Vaccine to eradicate this virus. (In the 1980's the U.S. was attacked by HIV/AIDS. More than 90% of those diagnosed died. Here we are, forty years later, after spending billions upon billions of dollars in research, and we still do NOT have a Vector Vaccine for HIV/AIDS.)

7. Will an additional "Booster" shot be needed to "Boost" the immunity system again, how many "Boosts" can the immunity system take before getting "burnt out"? And, what happens to immunity systems, at different ages that have been "Boosted more than once"? They don't know because this "Boosting" on this scale has NEVER been done to hundreds of millions of people worldwide. This is the biggest massive medical experiment in the history of mankind. It's being totally driven by the U.S. Government, to a great degree the American medical community and massive mainstream media. The right of **free choice** in personal medical issues by the American people is at great risk.

I can go on and on with questions that are going unanswered. I'm sure you can think of more questions that are also unanswered.

"Warp Speed" doesn't work for creating a Vector Vaccine. It works for creating a DRUG that will Boost a person's immunity system to the maximum. These Drug Trials that were run by the drug companies have been very limited in details and scope. So limited in fact the administration of the Vaccine should have been announced to the public as an experimental drug test and subsequently requested volunteers to take part in such a test. This should have NEVER been given the title of a "Vaccine." From an international legal point of view over 1,000 lawyers, over 10,000 doctors and medical experts consider these vaccines to have been totally illegal in the way they were dispensed.

This all leads us to this: The worldwide Vaccinations are without doubt the largest massive Medical Experiment in the history of mankind, surpassing by very far the medical experimentation performed by the Nazis in Europe in the 1940's. The Nazi medical experiments where a big part of the Nuremberg Trials that ran from 1945 to 1949. As a result of the Nuremberg Trials, new International Laws were created and added to the Geneva Convention as well as a set of laws known as the Nuremberg Codes.

We are heading for New Nuremberg Trials. PLEASE read below very carefully!

May 7, 2021

The New Nuremberg Trials 2021

A team of over 1,000 lawyers and over 10,000 medical experts lead by Dr. Reiner Fullmich have begun legal proceedings over the CDC, WHO, the Davos Group for crimes against humanity. Fullmich and his team present the faulty PCR test and the order for doctors to label any co-morbidity death as a Covid death as fraud. The PCR test was never designed to detect pathogens and is 100% faulty at 35 cycles. All the PCR tests issued by the CDC are rated at 37 to 45 cycles. The CDC admits that any test that's over 28 cycles is not admissible for any positive reliable result. This alone invalidates over 90% of the alleged Covid infections tracked by the use of this faulty test.

In addition to the flawed tests and fraudulent death certificates, the "experimental" vaccine itself is in violation of Article 32 of the Geneva Convention. Under Article 32 of the 1949 Geneva Convention IV, "mutilation and medical or scientific experiments not necessitated by the medical treatment of a protected person" are prohibited. According to Article 147, conducting biological experiments on protected persons is a grave breach of the Convention.

The "experimental" vaccine is in violation of all 10 of the Nuremberg Codes that carry the death penalty for those who seek to violate these International Laws.

The “vaccine” fails to meet the following five requirements to be considered a vaccine and is by definition a medical “experiment” and trial:

Provides immunity to the virus

This is a “leaky” gene-therapy that does not provide immunity to Covid and claims to reduce symptoms yet, double-vaccinated is now 60% of the patients requiring ER or ICU with Covid infections.

Protects recipients from getting the virus

This gene-therapy does not provide immunity and double-vaccinated can still catch and spread the virus.

Reduces deaths from the virus infection

This gene-therapy does not reduce deaths from the infection. Double-Vaccinated infected with Covid have also died.

Reduces circulation of the virus

This gene-therapy still permits the spreading of this virus since it offers no immunity to the virus.

Reduces transmission of the virus

This gene-therapy still permits the transmission of this virus since it offers no immunity to the virus.

The following violations of the Nuremberg Code is as follows

Nuremberg Code #1: Voluntary Consent is Essential

No person should be forced to take a medical experiment without informed consent. Many media, political and non-medical persons are telling people to take the shot, that it’s safe and offer no information as to the adverse effects or dangers of this gene-therapy. Countries are using lockdowns, duress and threats to force people to take this vaccine or be prohibited to participate in free society under the mandate of a Vaccine Passport or Green Pass. During the Nuremberg trial, even the media was prosecuted and members were put to death for lying to the public amongst many of the doctors and Nazis found guilty of Crimes Against Humanity.

Nuremberg Code #2: Yield Fruitful Results Unprocurable By Other Means

As listed above, the gene-therapy does not meet the criteria of a vaccine and does not offer immunity to the virus. There are other medical treatments that yield fruitful results against Covid such as Ivermectin, Vitamin D, Vitamin C, Zinc and boosted immune systems for flu and colds.

Nuremberg Code #3: Base Experiments on Results of Animal Experimentation and Natural History of Disease

This gene-therapy skipped Animal testing and went straight to human trials. In mRNA research that Pfizer used a candidate study on mRNA with rhesus macaques monkeys using BNT162b2 mRNA and in that study all the monkeys developed pulmonary inflammation but the researchers considered the risk low as these were young healthy monkeys from the age of 2-4. Israel has used Pfizer and the International Court of Law has accepted a claim for 80% of the recipients having pulmonary inflammation from being injected with this gene-therapy. Despite this alarming development Pfizer proceeded to develop their mRNA for Covid without animal testing.

Nuremberg Code #4: Avoid All Unnecessary Suffering and Injury

Since the rollout of the experiment and listed under the CDC VAERS reporting system over 4,000 deaths and 50,000 vaccine injuries have been reported in America. In the EU over 7,000 deaths and 365,000 vaccine injuries have been reported. This is a grievous violation of this code.

Nuremberg Code #5: No Experiment to be Conducted if There’s Reason to Think Injury or Death Will Occur

See #4, based on fact-based medical data this gene-therapy is causing death and injury. Past research on mRNA also shows several risks that have been ignored for this current trial gene-experiment. A 2002 study on Sars-Cov

spike proteins showed they cause inflammation, immunopathology, blood clots and impede Angiotensin 2 expression. This experiment forces the body to produce this spike-protein inheriting all these risks.

Nuremberg Code #6: Risk Should Never Exceed the Benefit

Covid-19 has a 98-99% recovery rate. The vaccine injuries, deaths and adverse side-effects of mRNA gene-therapy far exceed this risk, the administration of "leaky" vaccines were banned for agricultural use by the US and EU due to the Marek Chicken study that shows 'hot-viruses' and variants emerge making the disease even more deadly. Yet, it has been ignored for human use by the CDC knowing fully the risk of new deadlier variants emerging from leaky vaccinations.

Nuremberg Code #7: Preparation Must Be Made Against Even Remote Possibility of Injury, Disability or Death

There were no preparations made. This gene-therapy was approved under an Emergency Use only act, skipped animal and human trials and forced on a misinformed public.

Nuremberg Code #8: Experiment Must Be Conducted by Scientifically Qualified Persons

Politicians, media and actors claiming that this is a safe and effective vaccine are not qualified. Propaganda is not medical science. Many retail outlets such as Walmart drive-through vaccine centers are not qualified to administer experimental medical gene-therapies to the uninformed public.

Nuremberg Code #9: Anyone Must Have the Freedom to Bring the Experiment to an End At Any Time

Despite the outcry of over 85,000 doctors, nurses, virologists, epidemiologists the experiment is not being ended. In fact, more attempts to change laws to force vaccine compliance, mandatory and forced vaccinations are being pushed through, and experimental 'update' shots are planned for every 6 months without any recourse to the surmountable amount of deaths and injuries already caused by this experiment. Hopefully, this new Nuremberg Trial will put an end to this crime against humanity.

Nuremberg Code #10: The Scientist Must Bring the Experiment to an End At Any Time if There's Probable Cause of it Resulting in Injury or Death

It is clear in the statistical reporting data that this experiment is resulting in death and injury yet all the politicians, drug companies and so called experts are not making any attempt to stop this gene-therapy experiment from inflicting harm on a misinformed public.

Politicians, media, doctors, nurses informed that are complicit in this crime against humanity, they too are subject to the laws set forth in the Geneva Convention and Nuremberg code and can be tried, found guilty and put to death. Legal proceedings are moving forward and evidence has been collected. A large growing number of medical experts are sounding the alarm.

Don't take this lightly. The above noted case has been accepted for trial in the Ontario Superior Court of Justice and a very similar case has been filed in the Supreme Court of British Columbia in Canada. There will be more filings in Europe and other countries. The first U.S. action has been taken by America's Frontline Doctors (dedicated to protecting America's children). The other day (5/21/21), they filed a motion in the U.S. District Court for the Northern District of Alabama requesting a temporary restraining order against the Emergency Use Authorization (EUA) permitting the use of COVID-19 vaccines on children under 16 and that no further expansion of the EUAs to children under the age of 16 be granted prior to the resolution of these issues at trial. This is just the start of legal action and with over 1,000 lawyers working on it right now throughout the world. The resistance is growing! If the World Court in Hague, Netherlands takes up the case, it can be a very intense international situation.

My Research!

I was stunned to learn for the first time about what was called the "Nuremberg Doctors' Trial" it was part of the Nuremberg Trials taking place at the same time. I learning more about the 10 Nuremberg Codes related to medical experimentation. Some of those convicted at trial, received the death penalty.

I decided to research each and every claim made in Dr. Reiner Fullmich charges. What I found is that each and every claim is true by virtue of the evidence. Instead of detailing all the information I found related to the 10 Codes and Dr. Reiner Fullmich's charges which would turn this update into a book, I'll give you the brief results of the first item noted in the charges.

"Provides immunity to the virus

This is a "leaky" gene-therapy that does not provide immunity to Covid and claims to reduce symptoms yet, double-vaccinated is now 60% of the patients requiring ER or ICU with Covid infections."

This is what I found which was noted in more than one place regarding the subject. In an interview Dr. John Greene, Chief of Infectious Diseases at Moffitt Cancer Center answered the following question:

What are the chances of getting COVID-19 after vaccination?

Dr. Greene said, *"The COVID-19 vaccines are up to 95% effective. What that means about one in 20 people who are fully vaccinated could still get the COVID-19 virus if exposed to it."*

I realize that the 60% figure in Dr. Fullmich's charge is actually very accurate according to Dr. Greene. Therefore, six out of 10 being admitted to ER and ICU are people who have been vaccinated. To get a true measure look at the numbers. We currently have about 130,000,000 Americans vaccinated. 1 in 20, relates to .05% - that would result in 650,000 Americans currently vaccinated can contract COVID-19 and be hospitalized. How staggering is that number? It's more than the 588,000 American that have died as of today. (Of those 130 million Americans, how many are now walking around without a Mask thinking they are totally protected from the CCP Virus? Why is there such a conflicting debate about "Mask or No Mask? The entire nation is being "Opened Up - without Masks with 130 million Americans vaccinated with what experts say is most likely a six month Immunity System Boost and 177 million not - to say nothing of the new Variants arriving! What's going on?)

The 95% effectiveness might be way less when you consider how many of those vaccinated have weakened Immunity Systems to start with (the over 50 year old age group!). There are those who were injected with "spoiled vaccines" that needed to be constantly frozen and that was not. And, God oh might, how the hell did a company like Johnson & Johnson ever get consent to inject a vaccine into Americans, to date, over 12 million Americans have been injected with Johnson & Johnson and that number is growing big time each day. Only after seven New York Yankees employees who all received the Johnson and Johnson vaccine came down with COVID-19 did I learn that it is only 65% effective NOT 95% percent as first thought. To say nothing of the fact it's all being produced in Europe. I can't find out who is there in the production facility monitoring production quality and safety? Especially, after the EU ruled that the Drug should have a label warning of the SERIOUS BLOOD CLOT risks. How many Americans are being shown the label on the little bottle the drug is being drawn from or told about Blood Clots before getting the shot?

Please take time to read this web page about the Nuremberg Doctor's Trials. It's important!

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6179814/>

About PCR

You might wonder about the PCR test. Shortly after Biden won the election (CDC) and the day after he was sworn in (WHO) testing method was drastically changed to reflect a lowering of cases. The "Polymerase Chain Reaction" or as it's called PCR test can find genetic material from a COVID-19 virus. It can detect fragments of the virus after you have had and recovered from the virus or had breath in dead virus. The test swab is placed in a machine called the "Thermocycler" and it separates the DNA of the virus then replicates it using an enzyme. This process of separating and replication is repeated over 40 to 45 times, those are called "cycles". In doing so, it can create more than one billion exact copies of the original DNA. The Thermocycler will quickly pick up a symptomatic case of COVID-19 because it will have way, way higher infected virus viral loads. It takes fewer cycles to find the very high virus viral load in an infected person. And that is the Problem! Or, a way to control the reported number of people infected with COVID-19 for political reasons. The CDC NOW says the Thermocycler should be adjusted and set at 33 cycles. Dr. Fauci now says it should be adjusted and set at 35 cycles. The Thermocycler by Factory Default is set for 40 to 45 cycles.

To simplify: Think of a large bowl of M&Ms with the Red M&M representing COVID-19 DNA. Each Cycle is like taking a scoop of M&M's from the bowl. If the bowl has a very large percentage of RED M&Ms, the likelihood of the first few scoops (or Cycles) will include at least one or more Red M&Ms is very, very high, meaning an active infection. If the bowl has a very small number of Red M&Ms it would require more, and more scoops (or Cycles) to retrieve just one Red M&M. The higher number of scoops (or Cycles) the greater the chance of finding at least one Red M&M. Consider each few cycles creating billions of DNAs. So someone with dead debris of the COVID-19 virus who has no symptoms is counted towards the State and National statistics of infected persons. They are not contagious and are sent home to isolate in a room for 14 days! But, they got reported as a COVID-19 POSITIVE test.

The W.H.O., CDC or Dr. Fauci did not send out any Directives, Alerts, Notices, Warnings, Advisories about how many Cycles to set Thermocycler for COVID-19 testing until Joe Biden was elected and sworn in. Wonder why it slipped their minds! Did you notice how after President Biden was sworn in the Mainstream media STOPPED counting deaths and cases?

The higher PCR settings lead to a very high percentage of positive test results, patients who have already recovered from the virus, who can't infect others were being treated as contagious and counted as a person who contracted COVID-19 in State and National statistics.

Counting an unknown number of non-contagious cases with those who were actually contagious lead public health and government officials to GROSSLY overstate the number of COVID cases and decisions to close businesses, close public school, college and universities, lockdown people in their homes, quarantine everyone traveling, shut down the airline industry, mandatory mask orders, massive unemployment and other serious damage to our nation's people and economy. Patients who tested positive and the American public were never told or given details of these test methods. Actually, the CDC approved a test kit that was so inaccurate, just about everyone tested, tested positive. That kit was quietly and quickly withdrawn.

EVERY LIFE MATTERS!

EVERY death from this Virus is a tragedy. It's a life lost for someone who wanted to live. They had family and friends who loved them and suffered the loss. Under any circumstances this is heartbreaking and very sad! But, looking at the cold statistics of the number of American dead, this is what I found, with a population of over 300 million people.

Age:

0 to 17 - 287

18 to 29 - 2,163

30 to 39 - 6,299

40 to 49 - 16,987

50 to 64 - 87,915

65 -74 - 125,939

75 - 84 - 156,777

85 and over - 171,686

If we apply the age grouping we used earlier and separate the senior citizens from all other age groups we find:

In Group Three Senior Citizens between 53 and 78 as well as those over 78 there is a total of 542,317 who have died. This represents about 95% of the total Americans killed to date by the CCP Virus.

In Group One, Children, Teens and Young Adults under 26 and in Group Two, Adults between 27 and 52 there is a total of 25,449 who have died. In this group I was not able to find any statistics related to these deaths and if a compromised weakened immunity systems or other health issues not related to the CCP Virus, COVID-19 contributed to their death. This info seems to be kept secret under "Patient Confidentiality."

In the United States there is no doubt that this Virus should be and should have been labeled a "Senior Citizen Disease." Very deadly to older people because of their natural weakened Immunity System. This virus doesn't kill people under 50 years old in mass. U.S. Government, the medical community's leaders and the mass mainstream media all knew this to be true.

Finally, hearing from the media!

Recently, one of you had alerted me to the fact that **Fox News, Tucker Carlson** on May 5th, had a program where he covered the subject of post vaccine deaths. I try not to overdose myself with the media these days! So I DVR'd a later broadcast and this is mainly what Tucker mentioned:

- 1) From late December of 2020 through April 23, 2021, the Vaccine Adverse Events Reporting System (VAERS) reported that 3,362 people died, but the actual numbers are likely to be way higher. The VAERS is a part of the U.S. Government - linked closely to the FDA and CDC.
- 2) VAERS has received a lot of criticism for their under-counts of vaccine "injuries." Supposedly, fewer than 1% of adverse vaccine events were reported.
- 3) VAERS reported that last year over 160 million people received the annual flu shot. In 2019, 203 people died, in 2018, 119 people died, in 2017 only 85 people died. More people have died in four months of the COVID vaccines than ALL vaccines (flu, shingles, measles, etc.) administered in the U.S. from 1997 to the end of 2013 - 15 1/2 years!
- 4) In 1976 the U.S. vaccinated 45 million people against Swine Flu and 53 people died after getting vaccinated. The U.S. government immediately halted the vaccination program and decided it was too risky. This time the health authorities are redirecting their energy against anyone and everyone who dares to question the vaccine safety.
- 5) Europe reported that after getting the vaccine, over 900 people experienced non-fatal heart attacks, 2,700 people had unexplained chest pains and there were a total of 8,000 hospitalizations post vaccination.
- 6) The Covid vaccine accounted for more than 1/3 of all tinnitus reports. Oxford University and UCLA reported that women aged 18-34 had a higher rate of deep vein thrombosis than men of the same age. Heart attacks were more common in people 85 and older. Anaphylaxis and appendicitis were more common in young people who got the vaccine.
- 7) Not everyone's risk of dying from Covid 19 or dying from the Vaccine is the same, yet the Biden administration is demanding that 70% of all American adults be vaccinated by July 4th - or else! What "else" means is unknown right now!
- 8) Dr. Martin Kulldorf a professor at Harvard Medical School is of the opinion that the "VAERS reporting shows numbers just after the vaccine and is not so reliable." What about adverse effects two weeks after, a month after or six weeks after. Also, he thinks the "CDC Vaccine reporting is not believed by a majority of the American public and to use coercion and threats in public health is a very bad thing. Public health must be based on trust. Coercion actually, I think, damages the confidence in the vaccines. So vaccinating passports or to mandate students to take vaccines is a very, very bad public policy."

The Governor of the State of Washington has introduced "vaccine segregation" there, allowing vaccinated only sections at outdoor stadiums, graduation ceremonies, churches, etc., with separate entrances where you must show vaccine paperwork to gain entrance to these sections. There is no longer personal medical privacy. Students at Washington State University and the University of Washington are mandated to get the vaccine even if they already had Covid 19 and have the antibodies. Tests show that if you had the virus, you already have greater protection from your antibodies than you would get from the vaccine! However, the staff and employees at the university do not need to be vaccinated. The bottom line, it's all about government control and it's running amok.

Allergies, Autoimmune Disease and Cytokines Storm

This brings us to the subject of Allergies, Autoimmune Disease and Cytokines Storm. We suffer allergic reactions when our Immunity System goofs and goes overboard.

Allergies occur often in children because for the most part they have the best Immunity Systems. As for allergies, let's use seasonal pollen as an example, commonly known as "Hay Fever." During its blooming season a lot of people develop a reaction, mostly inflammation of the sinus tissue, nasal passages and lungs. This is the Immunity System making a mistake, thinking the pollen is a foreign "thing" (which it is!) and that it is harmful to the body (which it isn't!). The Immunity System attaches T-cells to each pollen node and the B-cells attack to kill it, causing the inflammation, sneezing, coughing, watery eyes and congestion. We have no way to tell the Immunity System to ignore the pollen and that it's harmless. With allergies there seems to be only one way to affect an actual cure. That's with allergy shots. For Hay Fever, a weekly shot containing a very small amount of the pollen is injected into the bloodstream. The injection site will nearly immediately swell as the B-cells attack. But with shots over a period of months and sometimes a few years, the Immunity System will start to rethink the pollen, start to think that perhaps the pollen actually belongs in the body and the B-cells start to ignore the pollen. With leveling off to monthly maintenance allergy shots the Immunity System has been tricked into ignoring pollen.

More serious than allergies, Autoimmune Disease happens when the body's natural Immunity System can't tell the difference between your own good healthy cells and bad foreign cells, causing the body to mistakenly attack normal good cells. There are more than 80 types of Autoimmune Diseases that affect a wide range of body parts. The most common autoimmune diseases are:

Rheumatoid Arthritis - arthritis that attacks the joints

Psoriasis - condition marked by thick, scaly, patches of skin.

Psoriatic Arthritis - a type of arthritis affecting some people with Psoriasis

Lupus - Disease that damages areas of the body that include joints, skin and organs.

Thyroid Diseases - Including Graves' disease, where the body makes too much thyroid hormones and Hashimoto's Thyroiditis where it doesn't make enough of the hormone.

Symptoms of autoimmune disease may be severe in some people and mild in others. There are different degrees of autoimmune disease and the symptoms a person gets likely relate to multiple factors that include genetics and their Immunity System.

The most serious of all is Cytokine Storm which I wrote about in my February 23, 2021 Virus Update. No one in the United States media, government or medical community is mentioning this. Why? Here is what Cytokine Storm is: Cytokine storm, also called hypercytokinemia, is a physiological reaction in humans in which the innate Immune System causes an **uncontrolled and excessive** release of pro-inflammatory signaling molecules called cytokines. Normally, cytokines are part of the body's immune response to infection, but their sudden release in **VERY** large quantities can cause multisystem organ failure and death as they trigger T & B cells to go out of control and attack good healthy cells in a massive assault on the human body. Cytokine storms can be caused by a number of infectious and non-infectious etiologies, especially viral respiratory infections such as H5N1 influenza, Ebola, SARS-CoV-1, and SARS-CoV-2 and CoVid-19. Other causative agents include the Epstein-Barr virus, cytomegalovirus, and group A streptococcus, and non-infectious conditions such as graft-versus-host disease. The viruses can invade lung epithelial cells and alveolar macrophages to produce viral nucleic acid, which stimulates the infected cells to release massive amounts of cytokines and chemokines, activating macrophages, dendritic cells, and others. The known Mortality Rate from Cytokine Storms is between 50 and 80 percent. It's difficult to determine exact percentages. In many cases the "Storm" can subside but leave the victim with several seriously damaged organs including the heart, that takes a life months or few years later.

In my most recent updated research into Cytokine Storm the best and easiest to understand information both factual and honest was at this Forbes website page.
