

Phase Two - Virus Update!

"Many people, especially ignorant people, want to punish you for speaking the truth, for being correct, for being you. If you're right and you know it, speak your mind." Mahatma Gandhi

So much vaccination information continually flows out to be found in the Left news media, the Right news media, the Center news media and it all overflows onto the Internet.

This Phase of my three-part report is to pull back somewhat from the flow and take a look back at "what, why and how." My family and I all reasoned and concluded to not get inoculated as our best choice to make **at this time**.

First, I want to say that I know some of you have gotten inoculated and some have not. I respect each of your choices. I am not anti-vaccine. I'm for anything and everything that will save lives!

It all started in late December 2019/early January 2020 with information I was getting from Ham radio operators in Asiatic Russia along the 2,615 mile border with China. Ham radio is unlike any other mode of communications on our planet. It's governed by National or in our case Federal rules and laws (Federal Communications Commission). Furthermore, each nation on earth is a member of the International Telecommunications Union (ITU) and signatory to a worldwide agreement that sets forth rules and laws that govern radio communications on the planet. Amateur radio operators worldwide are licensed by their respective countries and are required to pass written technical examinations and in many cases pass a competency test in sending and copying Morse Code at various required speeds. Ham radio communications flow over a vast exclusive spectrum of radio frequencies set aside by the ITU. This flow of friendly communications crosses international borders every minute of every day. There is no big worldwide plug to pull or switch to turn off Amateur radio, that Amazon, Apple, Facebook, Google, Microsoft, Netflix or Twitter can use. It seems like the only free flow of information left in the world today. But, particular conversations are avoided in terms of civil behavior, respect for others, use of profane language is banned, advocating violence is not acceptable, talk of politics and religion is not considered polite. Violation of rules and laws both International and National will result in license suspension or revocation. In all countries, operating an unlicensed Ham radio station can result in serious fines, prison time or both. But information flows, and in late December 2019 there was talk of large numbers of people fleeing west from Wuhan, China, by the thousands, until the Chinese Army blocked all exits from the city of Wuhan with shoot to kill orders. Those people who fled Wuhan told stories of massive death in the city. They claimed it was a Bio-weapon released from the Bio-lab in Wuhan. Not one person mentioned the open "meat market." The death rate was rising faster than the city could dispose of the bodies. Wuhan was a city in total panic. Many proclaimed this would absolutely bring down the Communist government. The fact that it didn't should tell every American to NOT EVER underestimate the current influence and power that the Chinese Communists have in the world we live in. Yes, I had early warning of this coming Chinese Communist Party Virus. I conveyed all of this to my family. One family member angrily accused me of trying to frighten them when I drew the comparison to the stories my mother and father told me about the 1918 Spanish Influenza in New York. This stunned me and gave me pause in passing this information on to you, not knowing at all how it would be viewed by you and how it could impact our friendship and relationship. Sadly, it only took a little more than two months for me to regret not telling you what I had learned. The virus reached our nation faster than could be imagined and you know that history. This failure to let you know, at the time, is something that will always trouble me personally. My great relief is to know all of you are well today, vaccinated or not.

Later in February 2000 I received via email from a source I am not going to disclose but incredibly reliable, a .pdf file of what might have been the first medical scientific "paper" reporting a very in-depth study of the COVID-19 virus. The study was conducted by leading Medical Scientists in India. I was

reluctant to release this in February 2000 for a number of reasons, but I have decided to give you a copy of this report that is attached herein.

If you look at the top of every page there is a web address where this report was posted. The site is at <https://www.doi.org/hb.html> - This is the International DOI Foundation in Oxford, England. This website's purpose is to allow doctors and scientists a place to post their work for other doctors and scientists to study the information in helping advance their own research or medical research for the good of all mankind. Many are reluctant to post their works on DOI for fear of having their works "stolen" or their ideas used by others. During February and March 2000 I did go to the web page a few times to see the comments being left by other doctors and scientists. Most seemed to be positive and mentioned technical issues they were also exploring. For the longest time I didn't return to the web page at DOI. But recently I was totally taken aback to find that the DOI had removed the entire report without any explanation and I could not find it at that site any longer. I don't know when it was removed. It just disappeared. Could this be China's influence and power on display? India and China share a border that is 2,100 miles long. They have serious ongoing territorial disputes along their borders. It involves two large areas and several small pieces of territory. Both countries maintain large military forces along these borders. Military conflicts have broken out between these two countries at several places along these border areas. In 1962 there was the Sino-Indian War and there was a brief border clash in 1967. In 1987 and again in 2013 due to the intervention of several neutral countries, military conflict was avoided and the tension was de-escalated. A conflict involving a Bhutanese-controlled area on the border in the area between Bhutan and China was successfully de-escalated in 2017 following injuries to both Indian and Chinese troops. Multiple brawls broke out in 2020, escalating to dozens of deaths on both sides during June 2020. There was perhaps a good reason for India to take down this report in terms of keeping peace between both countries. Who knows?

China wields great influence and was powerful enough to have the entire world stop calling it the Chinese Virus but rather COVID-19. To continue my recent look for the Report on DOI, there is more to it than the fact it was no longer posted on DOI. This gets very worrisome as it relates to Chinese influence and power in the U.S.A. If you carefully copy the link at the top of the document, paste it into your browser you will be surprised to be REDIRECTED to the Cold Spring Harbor Laboratory Website located on the north shore of Long Island, New York. This lab is mostly renowned for its research of Cancer. It receives over 40% to 50% of its funding from the U.S. government. I am not sure about the rest of the world, but any computer or device with a U.S. IP address that attempts to click onto this India report will quickly find themselves at the special Cold Spring Harbor Laboratory web page dealing with the India report. Once at the CSH web page, click on the Red Link related to "Details" and it's nothing but critical denunciation of the report. It's kind of crazy since all the comments are critical of the report and disputes its accuracy. Yet, those critical of the report are somewhat anonymous. They are not identified as doctors or medical scientists. This web page's sole purpose is to trash the hell out of the entire India report. Question: Who has the facility or ability to redirect a foreign web site's web page to a U.S. government sponsored website? Denying "Free" Americans their right to see what they wish to see on the Internet? Frankly, the extent the U.S. government has gone to bury this report and hide it from the American people, only makes me believe there is a lot more scientific truth to this than the government wants the American people to know. Question: Does America's Deep State run through Beijing? What are the current American administration's fears about this report that it has to hide from the American people?

There is a link at the end of this report allowing you to read and study the early research of India's top medical scientist. This report can also be downloaded from your "Downloadable Documents" page.

It's deep in medical and biological terminology. But if you take your time and read, even if you don't fully understand all the terminology, you will derive a sense of what is being written. But, here are just a few items that I would like to point out to you:

The Report refers to "Four Inserts." From what I learned early on and mentioned in previous messages on this subject is that the most deadly viruses to humans are the two Strain viruses, which I believe have two Inserts. An Insert is a part of the virus. It's a capsule filled with genetic material in the Virus that can't replicate on its own. But, when it enters a human cell and INSERTS its DNA, the human cell reads that DNA and uses its own human cellular machinery to produce a Virus progeny that emerges into another Virus that then restarts the process over and over again. So two Inserts beget four viruses, four viruses beget eight viruses and so on. Now, a Virus with four Inserts can replicate twice as fast as a two Insert virus. People with serious COVID-19 need ventilators very fast. Those with weakened immunity deteriorate faster and they need ventilation sooner since they can't mount a reasonable "Base" defense at the disease's onset. So far children who have the most powerful immunity of any human age group seem to be able to hold it at bay and often eliminate COVID-19. In the Report please read "Conclusion" on pages 8 & 9. I was speechless when I read the Report that states, "First, we identified 4 unique inserts in the 2019-nCoV spike glycoprotein that are not present in any other coronavirus reported till date." Meaning that four Inserts have NEVER been found in any other coronavirus, ever. They stated, "To our surprise." That's nine leading doctors and medical scientists being "surprised"? Then, "Of note, all the 4 inserts have pI values of around 10 that may facilitate virus-host interactions." In another place in the Report they use the term "Enhanced virus-host interaction." The statement that shook me was, "This uncanny similarity of novel inserts in the 2019- nCoV spike protein to HIV-1 gp120 and Gag is unlikely to be fortuitous." Fortuitous means something NOT occurring by chance. Or, meaning to me NOT occurring in Nature but Manmade.

On page seven: "To our surprise, these sequence insertions were not only absent in S protein of SARS but were also not observed in any other member of the *Coronaviridae* family (Supplementary figure). This is startling as it is quite unlikely for a virus to have acquired such unique insertions naturally in a short duration of time." Meaning it "Suddenly" appeared on earth, did not evolve over time! Again, meaning to me Manmade.

Read "Discussions" and "Conclusions" and the call for further investigation of how this *Coronaviridae* has come into existence. Stating their "findings suggest an unconventional evolution"! Like Manmade.

If not made by God in Nature, then it was Manmade. I totally believe those people from Wuhan who said it came from a Bio-Weapon Laboratory. I really do!

All stated above was where my thinking was during 2020 leading into 2021. I read between the lines as I followed the News after January 2020 and watched China play the W.H.O., the mass media, refusing the U.S. CDC and other European nations consent to enter China to study the virus and it's source. Why did China wait so long to seal Wuhan, to never stop air flights to everywhere in the world including the United States, knowing there were infected Chinese nationals flying as tourists all over Europe, thereby devastating, Spain, Italy and the rest of Europe? Then they issued FAKE press releases stating the U.S. Army planted the Virus in China. I didn't know whether to laugh or cry at that one. If the Chinese were saying first it came from bad meat in an open meat market in Wuhan then suddenly it became a Bio-Weapon the U.S. Army planted in China! I guess they were trying to create some "hometown" propaganda since the Chinese people were too aware of which Lab the Virus was really released from. It surely didn't come from anywhere in the U.S.A. I believe it came from the Wuhan lab but we might never know if it was an accident or deliberate. To this day, I'm not sure which to be more concerned about, the Chinese Communist Party Virus or the Chinese Communist Party's influence, power and control over the U.S. government, media, certain particular American political party's elements and the people in the United States.

So, this is what has shaped my, as well as my family's, thinking in relation to the Chinese Communist Virus. I know and believe it was Manmade and came from a Biological Warfare Lab in China. We have learned, and my research has proven to me, that this virus behaves like no virus in nature has ever behaved!

I am very sure that at this minute serious work is being done 24/7 to develop a real true Vector Vaccine that I would be very happy to be vaccinated with and I hope everyone I love and care about would also.

Several of you have furnished me with links to websites and documents dealing with the virus and vaccine. For that, I sincerely thank you VERY much and keep the information rolling in. I read it all and save it. You will recognize your help when I write about it.

Soon, in Phase Three I'll discuss the current drug treatment/vaccine and what the future might hold for all of us.

Here's the link to India's Top Medical Scientists Chinese Communist Party Virus Report:
